EXPERIENCE

Software Developer (ReactJS)

Fi Elements

📅 Apr 2023 – Nov 2023

📍 In-Office, Noida

- Developed VeddX, an advanced educational platform catering to both Learner and Expert user categories. The platform empowers Experts to impart knowledge on a diverse range of subjects to Learners.
- Within the system, Learners have the capability to post their specific study requirements, prompting Experts to submit proposals outlining their approach to teaching the specified topic.
- Experts, in turn, have the ability to publish information regarding the subjects they intend to teach. Learners can then enroll in these classes by remitting the associated fees to the respective Expert.

Frontend (ReactJS) Developer

DesignX Studio

📅 Mar 2022 – Sep 2022

📍 In-Office, Noida

- Translated designs and wireframes into high-quality code using ReactJS and NextJS.
- Integrated the developed code with RESTful APIs to ensure seamless functionality.
- Worked closely with cross-functional teams, including developers and designers, to drive innovation and foster organizational growth.
- Ensured the technical feasibility of UI/UX designs and explored collaborative methods with team members on GitHub.

Team Leader at Devsnest Learning Community (Student Mentor)

Devsnest

📅 Dec 2021 – Mar 2022

📍 Remote

- Managed a team, assessing and addressing frontend challenges within the community.
- Prioritized peer learning, guiding team members to resolve their doubts and fostering a collaborative learning environment.
- Active Contribution and Learning:
- Actively participated in and contributed to weekly internal hackathons.
- Gained valuable insights by solving diverse community doubts and learned about the organization's overall strategies, business operations, and key drivers of success.

EDUCATION

Masters of Computer Application

Chandigarh University

📅 2022 - 2024

📍 Chandigarh

Bachelors of Arts

School Of Open Learning

📅 2018 - 2022

📍 New Delhi

PROJECTS

E-Commerce App

User-Friendly Functionality:

- Developed a comprehensive E-Commerce store, enabling users to purchase products conveniently online.
- Implemented security measures such as authorized email passwords and efficient database management.
- Empowered users to manage their products by facilitating additions, updates, and deletions.
- Implemented state management using Asynchronous Redux Actions and Redux Thunk to enhance the user experience.

Music App

- Built a music listening app using react and Rest API.
- User listen the songs of any artist, top artists, genre and top charts of around the world.
- Handled all State through Asynchronous Redux Actions using Redux-toolkit.
- Implemented best design to enhanced user experience.
